DEAR DON

Dear Don, What is the matter with the people of Santa Ana? In years past they have lost the opportunity of having a decent college by silly bickering over the location, and the same thing will happen again if Santa Ana doesn't come to its senses. The important thing about a college is not the site, but the academic standards. People have discussed the site for months, but very few have ever mentioned the buildings, faculty, or the pro-

We need a good college, and we need it now. The site, North, South, East or West makes very little difference. Let's have action.

Dear Editor,

Is it fair to limit voting and club membership to the holders of student tickets? One of the purposes of a junior college is to provide an education for men and women who are not financially able to attend a university. Althought the cost of the student card is too expensive for students with strict college budgets, it is essential for those who wish to enter into the spirit of life here at college. Many fine and worthwhile students are not allowed to vote, hold office, or belong to clubs be-cause the cost of that little square of cardboard is too much for their expense accounts.

I think some action should be taken against this unfairness. know it is a custom of long standing in Jaysee, but it seems very unnecessary to me. What is your R. J. L. opinion?

Thanksgiving Day November 23

President Roosevelt has proclaimed Nov. 23, the fourth Thursday of this month as Thanksgiving Day, thus following the law enacted by congress Dec. 26, 1941. Five states plan to observe Nov. 30, the last Thursday, through local choice.

PROCLAMATION

El Don calls attention to a striking feature of the Thanksgiving proclamation. President Roosevelt requests "a nation-wide reading of the Holy Scriptures during the period from Thanksgiving day to Christmas. Let every man of every creed go to his own version of the scriptures for a renewed and strengthening contact with those eternal truths and majestic principles which has inspired such measure of true greatness as this nation has achieved."

We recommend to all Dons and Donas compliance with our Presi-

Our staff cartoonist, Gene Hamaker, in the concentration camp for airmen near Berlin, Stalag Luft III, whiles away the tedium of imprisonment by putting into a cartoon his longing for home and friends.

"Saturday Nite Blues' 'sternly recalls to all of us the fact that thousands of American boys will be spending Thanksgiving Day in fox-holes, on battle-fields, in hospitals, and prison camps.

"What do we have to be thankful for?" many Americans on the home front are asking in sarcastic tones. We Americans have more to be thankful for than any other nation in the world. We are in another war, to be sure, but a war to preserve the rights and freedoms we toss around so carelessly. We should give thanks that this nation still has such freedom and the will to fight for it. Our forefathers as they celebrated that first Thanksgiving Day felt that being alive and having reaped a harvest were sufficient reasons to giving gratitude to God, but we, their children, whimper and cry over the hardships of our sacrifices—a pound of butter, a gallon of gas, a pair of shoes, a few steaks, and money for war bonds!

If we think we have nothing to be thankful for, we are not true Americans.—Juanita Robinson

Pfc Mary Petro, USMC Attending Night School

Santa Ana jaysee has a good record for its night school attendance, really an unusually high one. This may be accounted for by the many industrious service people who are trying on their free nights to further their interrupted educational programs.

Pfc. Mary Petros, here from Ohio is attending our jaysee and is taking four subjects, quite a load considering the limited time she has to prepare for classes.

"I think school is wonderful and I like all of my teachers very much," she said, "but I regret that I have so little time to study. At the base there is so much noise! I feel, however, that I get much out of just attending the classes alone."

Miss Petros is in the Store Division of Naval Accounting at the El Toro Marine base now. was a "boot" in North Carolina, then went to Georgia, from there to Miramar at San Diego and since last January has been stationed here.

ROBERT LAGERUIST

"I like football, baseball, jazz, longhair, and Hedy Lamar," was the casual reply made by Mr. Robert Lagerquist in answer to the usual query.

Robert was born in Chicago some eighteen years ago. Very early he decided to become a musician. Since then a rough count of six hundred and seventy-six piano lessons have gone under the bridge, which constitute thirteen years of hard practicing.

An accomplished pianist, he has played for many assemblies and recitals. His favorite pieces are "Sweet Loraine" and "Autumn octurn," but he coyly added Tsaikowski sends me!" Nocturn."

However, he is not strictly a 'music recluse' for his interests are varied. He rowed on the crew in Chicago and likes wrestling and other sports.

"My ambition is to be the director of a great orchestra." As his energies are all directed toward this aim, success is sure to crown them. We are happy to have Robert Lagerquist here at our jaysee and know that his talent will add much to our coming assemblies.

Thanksgiving Day Poem

Virginia Mowry, freshman from Lido Isle and poetry editor of the Newport Harbor Union high school alumni paper, "44 Fanfair" has written for this issue of El Don the following poem:

Thanksgiving Goes to War If you moan because of shortages And you need some consolation, Don't forget you're not the only one!

Others share your situation.
